CORE

within 1 hour

for all ventilated patients
that meet any conditions below:

please
wait
before you
extubate
call
(800) 366-6777
press 1

anticipated family
meeting to discuss
end-of-life care

brain death protocol
is being considered

irreversible
brain injury
(traumatic or anoxic)

Loss of neurological
protectives without
sedation (GCS \leq 5)

Center for Organ Recovery & Education

DONATE

LIFE

 Refer **all** deaths
and **imminent deaths**
regardless of age or diagnosis

CORE will
determine the suitability
of all potential donors

 Refer patients
without mentioning donation
or **CORE** to the family

If initially suitable, **CORE**
will huddle with the medical team
regarding potential donation

 Call **CORE** prior to
deceleration of life-sustaining
treatment (vasopressors, vent, etc.)

Refer every death within 1 hour
